ments to which the delicate form of woman renders her subject. The result of all these etimulants has

her subject. The result of all these etimulants has been to impart momentary activity to the nervous system, and false vigor to the muscles; but this relief has been aucceeded by a depression and prostration greater than before; and the repeated attempts of invalids to hall themselves up by these files remetles have finally ended in destroying what little vital organization was left. But in using "Berchare's Holland Bitters," you will find no euch lisastrous results. It is a purely vegetable compount, prepared on strictly scientific principles, after the manner of the celebrated Hulland Professor Burchave. Under its indusence, every nerve and muscle receives new strength and vigor, appetite and elsep return, and finally, perfect health. See advertisement in another column.

immediately. In this section of Kentacky your Liniment stands pre-eminent for the many virtues it possesses—more, really, than you claim for it. To my own knowledge, It has been eminently enceessful in the complete cure of piles. Many casea, that have dasted all other remedies for years, have been cured perfectly by a few applications of your Liniment. Very respectfully, yours,

REMARKS.—We have examined the apecimens of great referred to shove. It is certainly an extraordinary growth. Unless the whole lot show a somewhat similar inxuriance, we should be disposed to think the specimens sent were volunteer growth, and at least a year old. Will our correspondent please favor so with a statement of the nature of the sold and the character of the underlying rock; also the kind of timber and undergrowth natural to this land?

The U.S. Achieveltereal Society.—The Executive Committee of the United States Agricultural Sciety at their recent ression decided not to accept the proposition for holding their amount fair in Baltimore. The citizens of Richmond, Va., have made a proposition for holding their amount fair in that city, which is held under consideration. It is supposed that this offer may be so modified as to be acceptable to the Society. The following we copy from the Baral New Yorker:
